What our members say:

- **95%** agree SALSA Certification improves their **food safety management system***
- **92%** agree SALSA Approval helps meet **customer requirements***
- **80%** agree SALSA strengthens **supply chain assurance***

***Results taken from SALSA Customer Insight Survey, September 2025, based on 114 responses.**

Being part of the SALSA certification has been an extremely helpful and positive experience for our small chocolate factory. The standards and tools are clear and easy to understand, which has really helped us improve our systems. The audit itself felt supportive and constructive—focused on helping us grow rather than just finding gaps. It truly feels like SALSA is on our side in this journey.

Mood Foods

With SALSA we can be confident that we are exceeding industry standards and providing the best products for our customers.
